

How to Order QRT-PCR BCR-ABL

1. Physician contacts MolecularMD customer service (877-459-4979) to order Specimen Collection Kit, if desired. Physician may use own supplies.

2. Physician's office retrieves and prepares specimen for submission. Collect 10mL of peripheral blood via venipuncture.

3. Physician completes the MolecularMD Requisition Form.

4. Physician packages specimen in Specimen Collection Kit and sends to MolecularMD overnight. (See Shipping Guidelines Form)

5. Results are returned via fax or email within 4-5 business days of specimen receipt. (See Results Interpretation Form)

6. MolecularMD submits Medicare Claim or invoices patient.

To request requisition forms or additional ordering information and instructions, please call MolecularMD customer service at 877-459-4979.
